🎓 EDUCATION

Bachelore In Computer Application

Noble Degree College Bangalore

09/2023 – 08/2025

- Hold a 2nd position in Computer quiz Competition in College.

Intermediate

BSEB

03/2020 – 06/2022

🧠 SKILLS

Programming Skills

C, Python, Bash, Html, Css, Js

Tools & Technologies

SIEM, Kali Seecurity Tools(Nmap, wireshark, Burp Suit, Metasploite) HackTheBox, TryHackMe

Interpersonal Skills

Public Speaking , Responsibility , Teamwork , Flexibility

📁 PROJECTS

KeyLogger

(Security Tool Developer)

- Researched and implemented methods for capturing keystrokes within specified environments.
- Analyzed the data collected to identify security gaps in system defenses and propose mitigation strategies.

JARVIS AI

Developer

- The AI Virtual Assistant operates through an Android application installed on the user's smartphone. Activation is triggered by the wake-up command, 'Listen up Jarvis'. The Android app communicates with the Arduino 101 via Bluetooth, which is connected to a relay controlling the electrical appliances.

📖 ASPIRING CYBERSECURITY RESEARCHER

A motivated and detail-oriented student with a strong foundation in cybersecurity principles and a keen interest in identifying, analyzing, and mitigating security risks. Familiar with conducting vulnerability assessments, basic penetration testing, and security audits through academic projects and personal learning. Continuously learning about industry best practices and emerging cyber threats, with a dedication to building a successful career in cybersecurity.

- I Received an appreciation letter from Oslo University for successfully identifying and securing web assets, demonstrating strong web development and problem-solving skills.

🏢 EXPERIENCE

Intern

ANZ Australia (Forage Job Simulation)

11/2024 – 01/2025 | ANZ Australia

- ANZ Australia Cyber Security Management Job Simulation on Forage - December 202
- Completed a simulation focussed on identifying cybersecurity threats at ANZ
- Investigated e-mails to report suspicious items
- Analysed a Packet Capture file using an open source tool to identify and investigate any potential threats

Cyber Security Analyst Intern

MasterCard (Job Simulation by Forage).

08/2024 – 11/2024 | MasterCard(Forage)

- Conducting research on emerging threats and vulnerabilities in cyber security systems
- Collaborating with crossfunctional teams to identify and understand potential cyber security gaps and developing appropriate solutions
- Providing guidance and recommendations on best practices for cyber security defenses
- Conducting investigations and forensic analysis to determine the origin and impact of cyber security incidents
